Whether it's practice, student with trainer, or student without trainer... my mercs do not increase their skills.

I'm using the latest version (downloaded yesterday actually).

Edit: After clearing the adjacent sector and making a bit of progress, the assignments grant skill-gain again.

Still don't know what's up with the earlier attempt, but this works good enough for me .

Could you be more specific about the exact version number you are using, pls.
('cause some refer to current stable release version 4870 by "latest 1.13", other refer to recent unstable dev version)
