Some of those moments captured seem almost surreal to me, can't-or more like don't want to-imagine what it was like to be part of that lot. Some of those guys seems a bit unhinged like that half eyed geezer who looks like twitching on coke or amphetamines. Must have been hell of an experience to run and gun with those fellas on your side. Or not so much, as when I further read about it, some really nasty stuff appeared like killing team mates and civilians. As a matter of fact Mad Mike had to shoot one of his guys dead for killing a 6 years old boy or something.
